Projects & Timeline

Period: May 2018 to Present
Company: Belfrics BT
Role: Angular Developer, Django Developer
Technologies: Django, Angular (v7.0.4) ,HTML5, CSS3

The project I have done during this phase is creating verifier app in django which takes document from the user and shows it to verifier who logs into this app.The front end used for this application is Angular. Angular front end makes api call to django verifier app. verifier app makes api call to another platform to have security for the records.

Period: December 2017 to February 2018
Role: College Team project leader
Title: Hand Cricket Game
Technologies: Android Studio

Hand cricket game is interesting game where two individuals plays against each other. In this application user plays with the our application. User chooses the toss. Depending upon toss he chooses bating or bowling and plays the game according to handcricket game rules.
